

# Summer Creek High School promotes community building

“Our purpose is to do whatever it takes for all students to acquire the knowledge and skills to become productive responsible citizens,” said Science Academic Lead Teacher Alisha Norman. “Summer Creek’s staff and faculty realize how important it is to work closely with our parents to provide our students with the highest quality education experience. We believe that when families, schools and community groups work together to support learning, students stay in school longer, and become the desired individuals we aspire them to become in our society.”

SCHS is promoting community-building through the First Annual Academic Fall Festival. This event provides an opportunity for students and parents to work together in a school friendly environment. Food and beverages will be provided. Elementary schools in the SCHS attendance area will also participate by bringing activities for younger siblings.
