

## Tips for Walking Safely to Humble ISD's Schools

About 26,000 students in Humble ISD arrive at school by walking, riding bikes, or being delivered by their parents or guardians.

Walking is great exercise! If you walk to school, remember the following tips.

- Parents should identify the safest route, practice it with their children, and teach children to not vary from that route.
- Students should walk in groups and not alone. If anything unusual occurs, be sure to immediately report it to a parent or school staff member.
- Never accept rides that your parents did not arrange and tell you about in advance.
- Look left, right, left, behind you, and in front of you before you begin crossing the street.
- Obey traffic signs and signals.
- When you are near the street, do not push, shove or chase.
- Wear bright colors so drivers can see you more easily.
