

6th Grade World Cultures

Request to Retest

Per campus and district policy: "Students who score below 75% have the opportunity to attend and actively participate in one reteach tutoring session before being allowed to retest. Students are allowed one opportunity to retest (per test) to earn a maximum score of 75%. Students will receive the better of the two scores. Reassessment should occur within one week after the original test is returned to the student. The format of the retest is up to each department's discretion."
