

Attention HHE Parents: The Science Lab Needs You!

In today's world of fast technology, sometimes the best lessons can still be taught with cotton balls, Popsicle sticks, and rubber bands. Studies have shown that children learn best by doing and discovering answers for themselves. Hopefully your child has come home and talked with you about the exciting things that are happening during science this year. We have more wonderful learning activities planned for your students. In order to assist teachers in acquiring necessary supplies and to make sure hands-on learning is accessible to every HHE student, we are asking each family to help us fill the science shelves at Hidden Hollow Elementary.

The Science Lab is stocked with a wide array of consumable materials and standard science equipment. The teachers access it regularly for science lessons and experiments in the Science Lab. In order to keep the shelves well stocked, **WE NEED YOUR HELP!** We are asking every HHE student to donate one common household item to be collected and stored in the Science Lab. With the participation of every student, the Science Lab will help HHE teachers provide all students with hands-on learning opportunities. We appreciate your willingness to assist us in this endeavor.

There will be drop off boxes in the cafeteria for supplies. Each drop off box will be sanitized before being utilized in the classroom. If you have any questions, please feel free to contact me by phone at 281-641-2463 or email at kurtis.krause@humbleisd.net. Please donate the item listed below if possible by September 18, 2020.

Thank you for your support.

-Kurtis Krause

ITEMS TO DONATE:

Kindergarten	Ziploc bags (snack, sandwich, quart, or gallon)	3rd	aluminum foil, craft sticks
1st	Plastic or Styrofoam Cups	4th	sidewalk chalk, balloons
2nd	Paper plates and plastic cutlery	5th	AA and AAA batteries
