

How to access MyHumble Apps from Home

1. Go to <https://www.humbleisd.net/>
2. Click on Students

3. Click on the MyHumble Icon

4. Students will logon with their computer username and password:
Example: Username: JamHar1234 Password: ab1234ab
5. If students don't know their username and password they can email their teachers, and the teachers will call you with that sensitive information.
6. If at any point during this process google asks you for your student's email address is it their username@humbleisd.net (Ex. jamhar1234@humbleisd.net) and their email password is the same password they use to log into the computer. This will help get into Prodigy, Google Drive, and any other Google related Application.
