The Cost of Freedom
Crispus Attucks and the Boston Massacre

The start of the American Revolution was initiated on this day in 1770, which has come to be known as the Boston Massacre. The violence started that night when an angry crowd led by Crispus Attucks confronted a group of British soldiers, one of which was accused of hitting a boy with the butt of his rifle. Paralyzed by this shock, the soldiers then turned to the crowd killing five people. The time of which was Attucks. Many historians cite this account as the start of the American Revolution and Crispus Attucks, a black man, will forever be remembered as the first man to die in America’s fight for independence. Physically, Attucks aMorningstar, was a big man, 47 years old, and clearly a man of strength and commanding presence. Described as the monument in honor of Attucks in Boston Common are these words by John Adams: "On that night the foundation of American independence was laid."

The ideology of the Republican Party before the Civil War

Eric Foner

"...It is rather for us to be here dedicated to the great task remaining before us – that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion – that we here highly resolve that these dead shall not have died in vain, that this nation under God shall have a new birth of freedom, and that government of the people, by the people, for the people shall not perish from the earth..."
