

## Humble ISD/Lone Star College Dual Credit Exceptional Admission Guidelines

Dual credit courses (those that provide both high school and college credit) are available to high school students who have demonstrated college readiness.

A high school student registering for a college course is considered an exceptional admit student and must complete the exceptional admit enrollment form. Tuition is waived for dual credit courses, but fees still apply.

The dual credit course and final grade **will be transcribed** on both the student's high school and college transcript. The only exception would be if the student dropped the course prior to Lone Star College's deadline.

If a student registers for a college course using the exceptional admit enrollment form and selects "college credit only," the student pays tuition and fees. Once the course is complete, the student may decide whether to petition the high school for course credit.

Lone Star College requires students in the dual credit program to complete each course with a college grade of "C" or better. Students who receive a "D" or "F" will not be allowed to continue in the dual credit program.

These guidelines apply to all dual credit courses available to Humble ISD students, whether taught at the high school, Lone Star College, or online, during Fall, Spring, and Summer semesters.
