

Dear Houston Area Friends,

My heart hurts for you and what you have been through and I want to help my Action Based Learning Family. We created a program call A Teachers Heart where teachers nationwide will adopt your classrooms or schools to help you through this storm.

We want you to sign up your teachers and schools to be matched with those teachers who offer their help. Go to the website link at www.youthfit.com/ateachersheartabl and fill out the form for teachers who need help. Email it to me at ateachersheartabl@kidsfit.com

You can also share the GoFundMe link with your friends and families who want to help out: www.gofundme.com/ateachersheartabl

Tell your whole staff and principals about our program so we can help as many teachers as possible!
