## SPECIAL EDUCATION

Special Education students have been working very hard **learning about fractions!** Through fun games and interactive activities, students have been able to increase not only an understanding of fractions but how to solve problems as well. In Social Skills, **we have been acting different situations that involve the appropriate way to speak to our friends and the correct tone of voice when doing so.** Special Education Teachers and students have also been hard at work preparing for the STAAR test. Students have been practicing using their strategies during the Mock STAAR tests and tutoring sessions. Please be sure that your students get plenty of rest the night before the tests.
